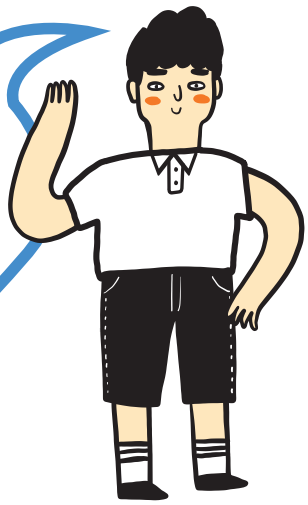
magic breakfast
Scotland

I love having breakfast at school because it helps me start my morning in a great way!



Lots of children in Scotland are sharing what breakfast means to them. Our ideas can help adults understand what makes breakfast time special for us.

Now it's your turn!

1. What is your favourite food at school breakfast?

2. What else do you like about breakfast time at school?

3. Do you think children of all ages should have breakfast at school?

4. What makes you say that?

5. If you could pick ONE word to say what breakfast at your school is like, what would it be?

Thank you for sharing your views with us, You're a star!
